WORK EXPERIENCE

VERIFICIENT SOLTIONS PVT. LTD

PUNE, MAHARASHTRA

Product Support Specialist

Mar, 2021 - Present

- Interact with users through a series of actions and answer all queries, resolve issues via various communication channels (chat, telephone or email).
- Handled more than **8 users** at a time.
- Support the roll-out of new application features.

UBERCIRCLE

PUNE, MAHARASHTRA

Google Cloud Administrator

Mar, 2020

- Monitoring CPU and **Cloud Filestore API** calls in Google Cloud Platform to manage cloud file servers
- Monitoring **Billing and Cost Management**. Reduced costs by **15%** by creating custom roles for different employees and automating creation/deletion of compute engine
- Creating scalable cloud SQL instances using **MYSQL configuration** to handle the storage of the application.

PROJECTS

COCKTAIL DATABASE

REACTJS, HTML, CSS

- A React Based Web Application that shows different cocktails and the preparation method. It uses an API and asynchronously searches for cocktail as soon as the user starts searching.

CHAT APPLICATION

REACTJS, CHATENGINE.IO, JAVASCRIPT

- A React Based Web Application through which users can engage in a group chat. It has been made using Chat Engine and Firebase Authentication.

MOVIE DATABASE

REACTJS, TMDB API, REACT ROUTER DOM

- A React Based Web Application that shows lists of different movies. Users can search their favourite movies which are fetched from an online API. The movies are also presented with their ratings.

PHOTO GALLERY

REACTJS, FIREBASE, STYLED COMPONENTS, PWA, MATERIAL UI

- A React Based Web Application that hosts pictures on Firebase. Users can upload their photo and view them anytime. The user needs to sign up/sign in to use the application.

EVERNOTE CLONE

REACTJS, REACT ROUTER, FIREBASE, STYLED COMPONENTS, REACT QUILL

- A React Based Web Application which is cloned like Evernote application and is useful in creating and storing handy notes. The notes can be deleted as soon as the work is done.
